www.aaronderington.net

- ◆ Your child will learn problem solving & time management skills.
- ◆ Playing piano increases eye/hand coordination & finger/wrist strength.
- ◆ Your child will learn the value of sustained effort to achieve excellence.
- ◆ Music helps children express themselves creatively & take risks.
- ◆ Music students earn higher grades in school.
- ◆ Playing the piano is FUN!

An alumni of the University of Missouri-Kansas City Conservatory of Music, Aaron has performed music for over 25 years. He plays in various bands in the Kansas City area, including Dino O'Dell & the Velocirappers, a children's music band. Aaron also composes original music & records/edits music for local musicians. His work has been featured on various websites & he has sold CD's of his work worldwide.

Aaron offers your child the excitement of learning music in a fun, structured environment. His creative activities & exercises will encourage your child to lay a foundation of music theory & appreciation. As an added bonus, every child produces his/her own CD quarterly so you can track your child's progress!
